EDUCATION

California State University, Fullerton
Masters of Science in Software Engineering
GPA: 3.84

Fullerton, CA
May 2025

California State University, Dominguez Hills
Bachelors of Science in Computer Science

Carson, CA
May 2022

EXPERIENCE

Teaching Assistant for Android Kotlin University
CodePath

Feb 2022 - April 2022
San Francisco, CA (Remote)

- Provided comprehensive guidance to students on app development using Android Studio and Kotlin, aiding in their understanding of mobile development.
- Utilized strong analytical and problem-solving abilities to identify and resolve coding issues in student projects, improving the overall quality of their work.

Lead Data Analyst Intern
CSUDH - University of Effectiveness, Planning, and Analytics

Nov 2021 - March 2022
Carson, CA (Remote)

- Maintained high standards of accuracy and organization in processing documents, ensuring compliance with established best practices.
- Demonstrated leadership abilities by assigning tasks to team members and evaluating their work to ensure high-quality output.

PROJECTS

Graduate Project: GhostLights

C++, Blueprints, Unreal Engine

- Developed a 2D action game focusing on cooperative gameplay involving colored lights to defeat enemies and solve puzzles
- Implemented multiplayer utilizing Steam online subsystem.
- Developed character selection, health system, and UI state management using Blueprints

HangulGo!

Kotlin, Android Studio

- Designed and developed an Android app that enables users to expand their Korean vocabulary.
- Incorporated machine learning technology powered by Google's ML Kit Digital Ink, to analyze user writing.

Nightmare Breakout

GameMaker Language, GameMaker Studio 2

- Designed and developed an engaging rogue-like action platforming game using GameMaker Studio 2.
- Demonstrated proficiency in coding and game design by creating a winning entry in the Best Coding Practices category at CSUDH IEEE CC's 2021 Game Jam.

SKILLS

Languages Java, C++, Blueprint, C#, SQL, Kotlin, GameMaker Language, Swift
Tools Unreal Engine, Unity, GameMaker Studio 2, Diversion, Android Studio
